The last trip The Little Tinkers made as a band was in February 2001. We were invited to come to Florida (USA), where we played for several dances around the Northern part of the state. Most of the time we stayed with some great people who live in a landco-op in Miccosukee near Tallahassee. I planned to write a tune for them some time ago and finally got round to it. So this waltz is for the MLC lot!
